

Cleaning Instructions

Vale FRP doors by design require very little care and maintenance. Periodic cleaning of the embossed fiberglass panels is recommended to prevent the accumulation of dirt and grime. A solution of household dishwasher liquid and water is advised to be applied with a soft cloth or sponge. Clean the door from top down using a small circular scrubbing motion and thoroughly rinse to remove buildup of the cleaning agent. Do not use any abrasive cleaners or applicators. Always spot test the cleaning method in a small inconspicuous area before cleaning the entire panel.

Non-Abrasive
