

# VALE

## Over 60 Years Later!

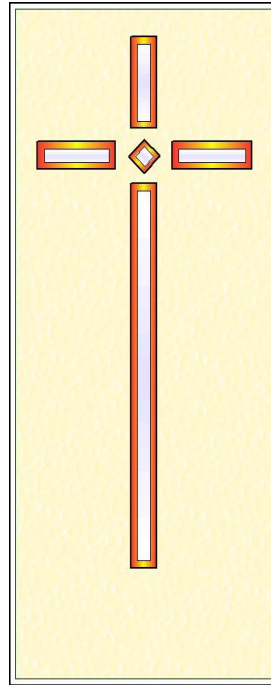

### Our History

Vale Manufacturing began operations in 1948 purchased land and constructed our current manufacturing site in 1954. We are a privately held corporation engaged in the production of FRP doors, aluminum entrances and related products.

Vale has enjoyed consistent growth by opening new markets even in difficult economic times. We believe our FRP products are amongst the finest in our industry while always striving to provide a level of personal service and attention to detail rigid corporate structures cannot duplicate.

Now as always, our focus will be customer satisfaction combined with our commitment to provide products of superior quality. Developing Innovative engineering one door at a time!
